

N.T.S. 2008 Best Safety Performer

NTS restored their status as being in the top 700 of 160,000 Alberta based companies. The award is made to businesses achieving outstanding safety performance while maintaining COR status. The award currently goes to the top half a percentile of companies.

"Thanks for all your hard work in helping us restore the Best Safety Performer Status. It takes a concerted team effort, especially the frontline workers, our employees and supervisors, to accomplish such a feat and we have to ensure that we build on this for the coming year." - Kevin Best - Operations Manager.
